Weather Key Points

Regional Operations Center

Western Region

Thursday, February 9

- Areas of dense fog will persist across parts of the Central Valley through late Thursday morning, and may redevelop over parts of the central coast Thursday night
- Gusty Santa Ana winds will also redevelop across the wind-prone areas of southern California Thursday through Friday morning, with east to northeast winds gusting 40 to locally 50 mph
- A slow-moving but fairly weak weather system will spread light rain and mountain snow across much of the state beginning Friday over northern California, gradually working into southern California Saturday afternoon through Sunday evening
 - No widespread weather impacts are expected with this precipitation, though some local travel impacts are possible over the Sierra, mainly above 4,000-4,500 feet late Friday and Saturday
 - Breezy winds of 25-35 mph are also expected across the Sierra, Sacramento Valley, coastal northern California, and much of southern California Saturday afternoon into Sunday
- Another storm could bring additional rain and mountain snow back to portions of the state for the early to middle portions of next week, though at this time the details remain uncertain

Daily Precipitation Forecast

Thursday, February 9

Thursday

Friday

Saturday

Important Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

Precipitation (inches)

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Thursday, February 9

6-10 Day Outlook (February 14 - February 18)

Temperatures

- Below normal temperatures are favored statewide

Precipitation

- Above normal precipitation is favored for northern and central California, with near normal precipitation favored across the south

8-14 Day Outlook (February 16 - February 22)

Temperatures

- Below normal temperatures are again favored statewide

Precipitation

- Above normal precipitation is favored statewide

Impact Level Definition

1. **Impactful weather is not expected.**
2. **Potential threat to lives and property if no/incorrect actions are taken.**
 - a. Localized impacts on commerce possible.
 - b. Includes events that occur frequently.
3. **Potential threat to lives and property if no/incorrect actions are taken.**
 - a. Impacts on commerce possible.
 - b. Includes events that occur a few times per year.
4. **Actions likely needed to save lives and/or property.**
 - a. Significant impacts to commerce possible.
 - b. Includes events that occur infrequently.
5. **Actions required to save lives and/or property.**
 - a. Significant and extended impacts to commerce.
 - b. Includes exceptionally rare events.
